The long journey of Centropen

The CENTROPEN company commemorates the 80th anniversary of the beginning of stationery production in Dačice.

Important milestones and events in the company's history:

1940

The factory for the production of STENO fountain pens and technical pens was established by two entrepreneurs joining forces in Dačice - and by the next year the company employed 20 staff.

1945

Moved to the current location in 9th May Street, the products OMEGA are becoming known not only in Czechoslovakia but abroad as well.

1948

The company, now with 140 employees, is incorporated into Centropen Pardubice. In addition to writing pens, the company's production was expanded to 30 other types of stationery.

1948–1960

The company produces up to 11 thousand units per day (for example Žák or Student types) and is becoming one of the biggest employers in the region.

1960–1970

The manufacturing plant in Dačice, with more than 500 employees, focuses on the production of pens composed of plastic parts, tampons, tips and inks, and the production of 300 thousand markers per day is added to almost 20 thousand fountain pens per day.

1970–1980

In Dačice, markers for the whole of Eastern Europe are produced and the enterprise enlarges the range to more than 150 types. In line with global trends, the amount of automated production is increasing.

1980–1990

The replacement of polystyrene with polypropylene symbolises significant technological changes and the genesis of new product lines, including the 1901 liner and the 2790 marker. The company gains independence and goes back to the original Centropen brand.

1990–2000

Centropen is privatised and becomes a joint-stock company with Czech owners. The company has the largest number of employees in its history, and holds a global monopoly on the production of blowing pens.

2000–2010

Centropen in Dačice, with 450 employees, manufactures almost 200 types of products with a daily production volume of 1.1 million and is the only manufacturer of writing and drawing instruments based on tip-tampon-ink in the Czech Republic.

2010–2020

Significant development in the field of writing instruments for children – roller TORNADO COOL, moulded from two types of materials. The fleet of machines was modernised with the aid of EU grant programmes.

2020

A further item, HIGHLIGHTER STYLE, with a new flat design, is included in the product range.

OFFICE

Fineliners	6–9
Roller pens	10
Highlighters	11–15
Markers	16–29
• Whiteboard markers	16–17
• Whiteboard cleaners, Eraser, Magnets	18–19
• Glue, Staples	20
• Flipchart markers	21
• Permanent markers	22–25
• Tablet pen	26
• CD/DVD/BD markers	26–27
• OHP – for overhead projection	28–29

INDUSTRY AND HOBBY

Special markers	32–39
Technical pens	35

SCHOOL

TORNADO, fountain pens, erasers	42–47
Round and hexagonal colouring pens	48–52
Book stands	52–53
Double-sided dry-wipe boards	53–55

CREATIVE

Gold and Silver	58
Happy pen, Happy liner	59
Markers	60–65
Bigga and Jumbo markers	66
Minimarkers	67
Maximarkers	68–70
Calligraphy	70
Textile markers, Decor pen	71–73
Tattooing, Sealing wax, sets	74–75

ART

Anti-stress black	78–79
Aquarelle	80–81
Permanent creative	81

Healthy writing and playful drawing

Young school children and pre-school children need to learn how to hold a pen correctly from the very beginning, making their first steps in writing and drawing much easier. Centropen has developed a perfect ergonomic grip, the final design of which is based on strict laboratory and technological parameters and testing. Young school children and their parents will also appreciate the ink's stability and long-lasting refills.

A whole world of fantasy

Plain white paper, plastic or a new white t-shirt elicit the need to create – not only in children, but also in artists and professional designers. Our collection of fabric, decorative and scented markers along with other products enable anyone to create the most perfect magic.
